MITCHEL A. ALEJO

Software Engineer

michalejo94@gmail.com | Waukegan, Il. https://www.linkedin.com/in/mitchelalejo/ | https://github.com/mitchalejo94

TECHNICAL SKILLS

Proficient: HTML, CSS, Node, Javascript, React / Redux, Axios, MySQL, Git
Knowledgeable: Express, PostgreSQL, Sequelize, Python

TECHNICAL PROJECTS

ArenasInc/Business Project | Developer | 01/2024

https://github.com/mitchalejo94/arenasInc |

● Developed a comprehensive business page featuring both client and administrator interfaces. Clients access business information and submit contact requests via a user-friendly form, facilitating streamlined communication. Implemented administrator functionalities, enabling secure login, viewing, and editing of contact requests, along with a dynamic calendar feature for efficient scheduling and management.
● Utilized MySQL and Sequelize alongside React-Vite, employing asynchronous coding to handle database operations effectively.

FoxValleyPainters Project | Developer | 12/2023

https://github.com/mitchalejo94/plumber_project | https://foxvalleypainters.netlify.app/

● Developed and deployed a modern, responsive front-end web application for a local plumber using React Vite.
●Designed and implemented a user-friendly interface to showcase services, contact information, and testimonials, enhancing the online presence and customer engagement for the business.

Grace Shopper Project | Developer | 02/2023

https://github.com/Pikachus-ThunderBolts/grace-shopper | https://tech-buy.netlify.app

● An e-commerce web application with functionality as a customer, visitor, or administrator that sells electronics.
● Handling user interaction with components, setting useful initial values for useState, and writing async functions.

Strangers Things | Developer | 11/2022

https://github.com/mitchalejo94/strangers_things.git | https://meek-daifuku-897696.netlify.app

● A Craigslist-Like website complete with users, login, register, posts, and comments.
● Setup authentication via local username and password, allowing creation/deletion of post and commenting abilities of all posts with unauthenticated users being able to see all posts, sign up, and sign in.

WORK EXPERIENCE

Capital Installation Specialist | Medline Industries | Northfield, Il. 10/2019- 03/2022

●Promoted to Installation Specialist to lead on-site support during medical equipment installs, ensuring product placement according to design renderings, overseeing proper equipment assembly and customer prioritizing customer satisfaction.
●Contributed to the team's growth strategy by implementing innovative ideas, such as recruiting and onboarding new installers. This expanded our workforce which significantly improved turnaround times, allowing us to compete more effectively with bids. In this role, I played a key part in accelerating the company's medical equipment installation services, contributing to a remarkable annual revenue increase to over a million dollars within just 5 years.
●Orchestrated and managed collaborative efforts with vendors, other product divisions, Medline warehouses, and third-party warehouses to meticulously coordinate and optimize deliveries, aligning seamlessly with customer expectations.

Logistics Coordinator | Medline Industries | Northfield, Il. 07/2016- 10/2019

●Collaborated with the sales force to determine customer's logistical needs, formulated delivery and install plans, and made logistical recommendations to enhance the overall customer experience. This involved working closely with cross-functional teams to ensure seamless execution of the devised plans.
●Provided freight and installation estimates for medical equipment shipments and installations.
